FINE-TOOTH CUTTER GUIDE

Every coat is different - fine-tune your groom with the right blade. Andis FT Blades with ceramic technology deliver the smoothest results on fine coats. Easily swap out cutters to get the right combination - groom after groom!

Unique tooth profile creates a smoother, cleaner finish on a wide range of animal coats - even on pets with especially fine coats.

Ceramic cutter blades in 22, 24 and 26 tooth options allow you to fine-tune your blades for the perfect cut. Switch between cutters - no tools required.

Ceramic blade technology stays sharper longer and runs cooler. FT cutters work with any Andis detachable blade.

ITEM #560186

22FT FINE-TOOTH CUTTER

Included with #30FT (item# 560188) and #10FT (item# 560192) blades; also sold separately.

ITEM #560184

24FT EXTRA FINE-TOOTH CUTTER

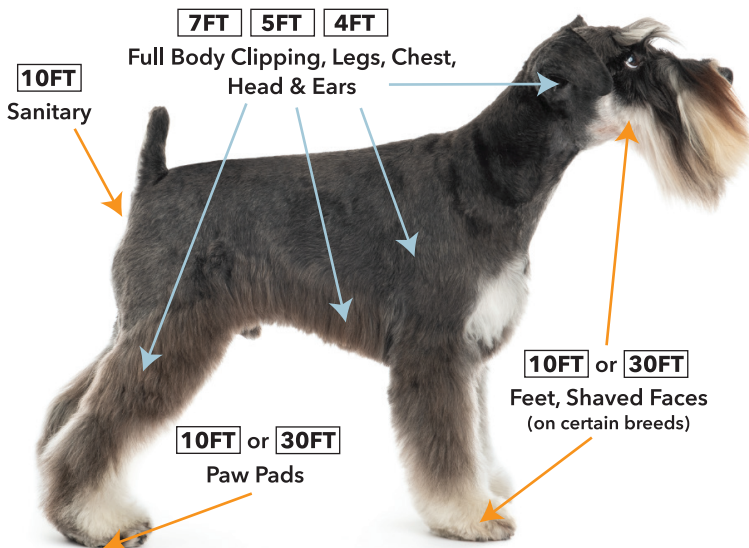

Included with #7FT (item# 560208), #5FT (item# 560205) and #4 FT (item# 560194) blades; also sold separately.

ITEM #560190

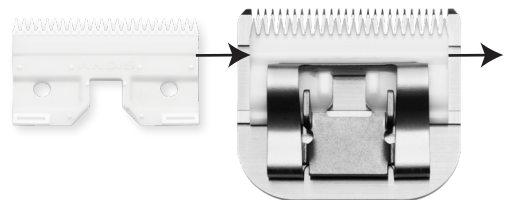

26FT ULTRA FINE-TOOTH CUTTER

This FT cutter is only sold separately and can be used on any Andis detachable blade. The ultra-fine teeth perform well with the finest pet coats including cats, rabbits and guinea pigs.

Switching FT cutters is easy! Simply align the blade you want to use with the edge of the existing blade and gently push in a horizontal direction. (USE CAUTION: BLADE TEETH ARE SHARP)
